

Assessment Title: Simple Addition Program

Question:

Write a Java program that reads two integers from input and prints their sum.

Example Input / Output:

- **Input: 3 5 → Output: 8**
- **Input: 10 20 → Output: 30**
- **Input: -1 1 → Output: 0**

Notes:

- **Use Scanner to read input.**
- **Print only the sum.**
